* [REDACTED] Comment. This shipment was probably dispatched to the small distillation plant in Pirna-Fockethal.

25X1

** [REDACTED] Comment. The report indicates that a total of 815 railroad tank cars entered the Soviet Zone of Germany via Bad Schandau during a 10 day period. The average level of about 73 railroad tank cars, observed since 20 November 1951, has thus increased to an average of 81 railroad tank cars. [REDACTED]
